#### Summary:

Anima3D is a script which draws a pseudo-animation of functional surfaces by varying values of a specified parameter.

#### Description:

This script, called "Anima3D" draws a pseudo-animation such as of 3D-ColorM or Contour graph type which demonstrates a series of functional surfaces of a given function with parameters making one of the parameters vary within some range. The animation can be exported in various image format. This script is stored in a file, anima3D.ogs which is attached to the project. You can find the file in the Project folder in CodeBuilder.

To execute, enter the following line in the script window, and hit ENTER key:  
 run.section(anima3D,main)
